

A man in a black leather motorcycle jacket is shown in profile, leaning forward. The jacket has a patch on the left sleeve that reads "Helsol" and "FACTORY RIDER". The background is dark and textured.

DEVON

DUXE

BIOGRAPHY

Born near Paris, Devon DUXE grew up with a mother who would leave him too soon. During several trips to the USA, he found a culture and way of life that resonated with his sensitivities.

His musical inspirations primarily come from bands such as HINDER, PAPA ROACH, and 30 SECONDS TO MARS.

A student at a music school where he would later become one of the teachers, he spent the early years of his musical career as a conductor, singer, and saxophonist for various bands.

As a songwriter, composer, and performer, he released his first album in 1995, then returned in 2022 with JUST A SECOND, and is now finalizing the recording of a third album at the beginning of 2025.

With extensive stage experience in these various roles, the creation and recording of his songs is just the beginning of a musical journey that will continue on stage.

RAGE and DESPAIR

Rage and Despair, two words that particularly characterize the nature of this album.

Rock and the energy that flows from it are the most natural vectors to express the essence of the emotions found in the tracks that make it up.

A musician and singer since childhood, Devon DUXE became a reality during the pandemic and the isolation that followed. Drawing from his experience, this time each track comes to life for personal reasons.

J U S T A S E C O N D

After several performances on French stages with rock and pop-rock bands, this time the album **JUST A SECOND** is composed, arranged, and performed solo.

The only goal is to share it with as many people as possible and bring it to life on stage.

The track **STAND UP IN THE AIR** is the fourth single.

Expressing a refusal of injustice and the passage of time, it follows in the footsteps of tracks like **JUST A SECOND**, **THINKING OF YOU**, and **I WANT IT SO LOUD**, showcasing great energy and a purely rock spirit.

Recorded in Paris and mixed at **TRANSLAB** studios, this song features powerful guitar riffs and a strong voice, which you'll discover while listening.
